

Local Government Comprehensive Plan (LGCP) Relationship 2013

29) Discuss how effective the integration of the CMP into the local government comprehensive plan(s) has been.

No changes have occurred over the last reporting period. Both the County of Volusia and the City of Ormond Beach have incorporated our Corridor Vision and elements of our Goals, Objectives and Strategies into their comprehensive plans.

30) Discuss any actions that are underway or are needed to maintain consistency with the LGCP and other plans.

We continue to pursue the long range goal of implementing an overlay zoning district to help future development comply with the aspects of the byway Vision and Goals, Objectives and Strategies already adopted into city and county comp plans. We expect local governmental agencies to value and act consistently with our corridor goals, objectives and strategies.
